

Title: Attorney Ken D. Duong, Esq. Office: TDL SNA
Phone: 714-775-6050 16511 Brookhurst St., Suite B,
Email: kenduong@tdllawfirm.com Fountain Valley, CA 92708

Bio: Ken D. Dương, Esq. is the founding partner of TDL International Law Firm, APLC in 2009 and is currently working in the Fountain Valley head office; however, he also works in the Vietnam office for a few weeks every year.

His areas of practice include domestic and international business and corporate law, estate planning, taxation, and immigration. Through his knowledge, experience and educational background – Bachelor in Economics, M.B.A., and LL.M. in Taxation – Mr. Dương understands the intricacies of starting, operating, and making a successful business, especially the importance of understanding market trends and the global economic environment. He also advises Clients on tax strategies relating to business operations in the United States and abroad.

He travels to South East Asia, mostly Vietnam and Thailand, at least once a year for a month or two for business and finding new personal and professional business opportunities.

Mr. Dương speaks, reads and writes in three languages – Spanish, Vietnamese, and English – from having lived, worked or traveled in Spain, Vietnam, Thailand, El Salvador, Argentina and a dozen other countries. One of his passions is traveling to different countries: eating local, authentic foods, learning about the customs and cultures, and finding business and public interest opportunities.

Mr. Dương currently represents two non-profit organizations: Thien Hau Temple in Los Angeles, California and Minh Tam Non-Profit Organization in Ho Chi Minh City, Vietnam. He understands the importance of learning about and giving back to the community.

Education:

- Master of Law in Taxation Candidate 2012, Chapman University School of Law
- Doctor of Jurisprudence, Golden Gate University School of Law
- Master in Business Administration, Golden Gate University Ageno School of Business
- Bachelor of Art in Economics, Minor in Spanish and Specialization in Computing, University of California, Los Angeles
